In accordance with PAEC procedures, awards shall be made to the responsible bidder whose proposal is determined in writing to be the most advantageous to PAEC based upon the evaluation criteria as determined by the Agency. The final selection, if any, will be based upon the evaluation committee's recommendation after analysis of the technical, management, and cost elements of the proposal. PAEC's decision shall be final.

D. Contract Development: Following the final evaluations, PAEC will develop a contract with the most highly qualified respondent(s). If a satisfactory contract cannot be developed with the most highly qualified respondent(s) the second most qualified respondent(s) may then be approached to develop a contract.

The proposals shall be evaluated by an evaluation team, to be designated by PAEC, which will determine the proposal most responsive to the requirements stated in this RFP. Proposals will be evaluated strictly in accordance with the requirements set forth in this RFP and any addenda(s) which are issued. Based on the results of this analysis, it may be necessary to interview and/or visit the operations of one or more Bidders. The evaluation team will then evaluate all information and make a determination which will result in the selection of a qualified provider(s) of office and custodial supplies.

In accordance with PAEC procedures, awards shall be made to the responsible bidder whose proposal is determined in writing to be the most advantageous to PAEC based upon the evaluation criteria as determined by the Agency. The proposals will be ranked from the one most likely, to the one, least likely to meet the requirements listed in the RFP. If several proposals are closely ranked, PAEC may arrange for oral interviews to assist in making the decision. If an award of contract is made, the Bidder who's Proposal, in the sole opinion of the PAEC represents the best overall value to PAEC and participating facilities, will be selected. Factors which determine the award are detailed more fully in the specifications, including, but not limited to: the Proposal's responsiveness to all specifications in the inquiry; quality of the Bidder's products or services; Bidder's ability to perform the contract; and Bidder's general responsibility as evidenced by past performance. **Again, price, although a factor, will not be the sole determining factor in award of the contract. Multiple contracts may be awarded.**

B. Responsiveness

All proposals will be reviewed by the RFP Coordinator to determine compliance with administrative requirements and instructions specified in the RFP. Only responsive proposals which **meet the minimum requirements** will be forwarded to the evaluation team for further review.

C. Award Will Be Based on Multiple Factors

As stated previously, the evaluation process is designed to award the contract to the Bidder whose proposal best meets the requirements of this RFP. The final selection, if any, will be based upon the evaluation committee's recommendation after analysis of the technical, management, and cost elements of the proposal. PAEC's decision shall be final.

D. Contract Development: Following the final evaluations, PAEC will develop a contract with the most highly qualified respondent(s). If a satisfactory contract cannot be developed with the most highly qualified respondent(s) the second most qualified respondent(s) may then be approached to develop a contract.

VIII. PROPRIETARY INFORMATION/PUBLIC DISCLOSURE

Material submitted in response to this Request for Proposal shall become the property of PAEC. All proposals received shall remain confidential until the contract, if any, resulting from this RFP is signed by the Superintendent/CEO of PAEC and the successful Bidder. Thereafter, the proposals shall be deemed **public records.**

Any information in the proposal that the Bidder desires to claim as proprietary and exempt from disclosure must be clearly designated. The page must be identified and the particular exemption from disclosure upon which the Bidder is making the claim. Each page claimed to be exempt from disclosure must be clearly identified by the word "Confidential" printed on the lower right hand corner of the page.

Marking the entire proposal exempt from disclosure will not be possible. The Bidder must be reasonable in designating information as confidential. If any information is marked as proprietary in the proposal, such information will not be made available until the affected Bidder has been given an opportunity to seek a court injunction against the requested disclosure.
