ACCESS TO INSTRUCTION FOR EVERY LEARNER

BUILT FOR THE CLASSROOM ENVIRONMENT

Language barriers are one of the biggest challenges in today's diverse classrooms. To overcome this, Audio Enhancement® developed CLEAR Connect™–a real-time translation tool that integrates with classroom audio.

According to the National Center for Education Statistics nearly 1 in 7 students needs additional instructional support and up to 43% of children have learning difficulties, highlighting the growing need for a translation tool to support learners of all abilities and foster inclusive, engaging instruction for all students.

> My students are getting the bigger picture and understanding more about assignments because of CLEAR Connect."

HOW IT WORKS:

CLEAR Connect delivers real-time:

- Transcription and translation of teacher instruction
- Text and audio support to reinforce learning
- Assistance for English Language Learners (ELLs), students with ADHD, and those with auditory processing challenges

Every student can now follow lessons in real time, enhancing accessibility and educational equity.
